EXPERIENCE

Asurion Hongkong Limited, BGC, Philippines — Software Engineer 2

JANUARY 2019 - NOVEMBER 24, 2024

- Developed new functions and forms for Dynamics AX 2009 (DAX)
- Developed new functions and forms for D365 Finance and Operations (FnO)
- Migrated DAX 2009 functions to D365 FnO
- Deployed and supported build deployments in Staging and Production environment in Dynamics AX 2009
- Created and modified reports in DAX
- Applied BarTender Integration in D365 FnO
- Point of contact for multiple processes in DAX 2009 and D365 FnO
- Supported multiple testings for API integrations
- Create Documentation for newly created functions

Information Managers Inc., Makati City, Philippines — Full-Stack Developer

MAY 2018 - AUGUST 2018(Internship/On the job training)

- Worked e-commerce websites with membership and product registration, product and official receipts creation, product payment, and API
- Collaborated meetings regarding e-commerce related projects
- Created daily reports

EDUCATION

Centennial College, Scarborough, Ontario — AI

JANUARY 2025 - Present

- Software Engineering Artificial Intelligence

SKILLS

Highly proficient in Dynamics
2009 (DAX 2009) and D365
Finance and Operation(D365 FnO)

Competent in BarTender
Integration

Very adaptable in a fast-paced and
stressful environment

Goal-oriented with focus on
project deadlines

Team player and can work
independently with minimum
supervision

Knowledgeable in PHP, Java,
Python, C#, html, and bootstrap

De La Salle University, Manila, Philippines — BSIT

JUNE 2014 - OCTOBER 2018

- Dean's List: 2nd Term, AY 2014-15; Special Term, AY 2014-15; 2nd Term, AY 2016-17; 3rd Term, AY 2016-17; 1st Term, AY 2017-18

PROJECTS

Bartender Integration — *replace DRA in D365 FnO*

Printing using DRA takes from tens of seconds to more than a minute in printing. This slowness is an issue in the Shipping process as the Business prints a lot of documents/labels per Sales Order. Bartender Integration decreases process time to seconds.

D365 Migration — *migration from DAX 2009*

Migrating 2009 functions/processes to D365 Finance & Operation. From Forward Logistics to Reverse Logistics(Sales Order Creation, Shipping Sales Order, Receiving Sales Order, Invoicing Sales Order, Batching Sales Order, etc.)

AU/UQ Sim Only — *New Client Group*

A new client group is introduced by business. This new client group should be able to use standard Sales Order creation to Invoicing.

OPEN KFS — *New Client Group*

A new client group is introduced by business. This new client group should be able to use standard Sales Order creation to Invoicing.

UQ Phone Protection — *New Client Group*

A new client group is introduced by business. This new client group should be able to use standard Sales Order creation to Invoicing.

Orange API — *Auto claim registration*

KDDI processes manually uploaded files every end of the day. KDDI registers claims in the file. Orange API replaces this process to register claims real time. Upon D365 migration, became responsible for the majority of Orange API.

Hours Delivery — *Delivery Service*

New delivery service type for KDDI. Delivers Phone within 3 Hours. Includes 4 Processes after Shipping: Judge, Create, API, and Invoice.
